## **MEDIA ALERT**

### **Westfalia Parking Solutions to Highlight Automated Car Parking System at BMAC East 2017**

**York, Pa.** – November 9, 2017 – [Westfalia Parking Solutions](#), a leading supplier of automated parking systems worldwide, announces it is sponsoring the 2017 [Bisnow Multifamily Annual Conference \(BMAC\), East](#). During the event, Westfalia Parking Solutions will highlight its fully-automated flexible, modular systems that are uniquely designed for mixed-use, residential and commercial parking. BMAC East will take place on Nov. 28 at Renaissance Washington, D.C. Downtown Hotel.

The growing number of vehicles on the road combined with limited space availability, especially in urban areas, has created a need for parking garages to have greater storage density. Local governments, developers and architects continue to search for solutions to this complex problem when considering new building projects. Westfalia Parking Solutions' automated parking systems help meet parking demand while providing an aesthetically appealing, environmentally friendly alternative that requires 40 percent less space than traditional parking garages.
