MEDIA ALERT

**Westfalia to Sponsor and Attend
Mid-Atlantic Multifamily Forum on April 30**

York, Pa. – March 21, 2019 – [Westfalia](#), a leading supplier of automated parking systems worldwide, announces its sponsorship and upcoming attendance at The Marcus & Millichap Multifamily Forum: Mid-Atlantic. On April 30, Westfalia will join the Mid-Atlantic region's most active and prominent developers, investors, owners and operators as they converge in Washington D.C. to discuss the current state and future of the nation's most exciting apartment market.

Now in its 8th year, the conference has become the annual meeting ground for apartment industry leaders and experts to take an in-depth look at the region's most important development trends as well as investment strategies in an increasingly competitive market.

Westfalia realizes that the growing number of vehicles on the road combined with limited space availability, especially in urban areas, has created a need for parking garages to have greater storage density. Local governments, developers and architects continue to search for solutions to this complex problem when considering new building projects. Westfalia's automated parking systems help meet parking demand while providing an aesthetically appealing, environmentally friendly alternative that requires 40 percent less space than traditional parking garages.
