**MEDIA ALERT**

**Westfalia to Sponsor and Attend  
Texas Multifamily Summit on June 12**

**York, Pa.** – May 14, 2019 – [Westfalia](#), a leading supplier of automated parking systems worldwide, announces its sponsorship and upcoming attendance at the Texas Multifamily Summit. On June 12, Westfalia will join the Southwest region’s most active and prominent developers, investors, owners and operators as they converge in Austin, Texas. This year’s conference program will cover Texas-wide multifamily activity and opportunities from an outside-in perspective, while also examining the detailed local market trends in Austin, San Antonio, Houston and Dallas Fort Worth.

Now in its 5th year, this exclusive conference has become the annual meeting ground for multifamily owners, investors and developers who are industry leaders and experts, to take an in-depth look at the region’s most important trends as well as investment strategies in an increasingly competitive market.

Westfalia realizes that the growing number of vehicles on the road combined with limited space availability, especially in urban areas, has created a need for parking garages to have greater storage density. Local governments, developers and architects continue to search for solutions to this complex problem when considering new building projects. Westfalia’s automated parking systems help meet parking demand while providing an aesthetically appealing, environmentally friendly alternative that requires 40 percent less space than traditional parking garages.
