MEDIA ALERT

Westfalia to Showcase Automated Parking Solutions at AIA Philadelphia's Forum on Architecture & Design

What

The Forum on Architecture + Design is AIA Philadelphia's regional education and expo conference. The Forum focuses on curating multidisciplinary educational content for designers, civic leaders, product manufacturers, technology providers, and real estate developers - all the industries that contribute to shaping our built environment.

Who

The way we park our cars is undergoing a transformation. While navigating vast lots or gigantic parking garages has been the norm, crowded cities can no longer accommodate parking in this way. Developers and designers are increasingly specifying a more sophisticated manner of parking vehicles that is known as automated parking systems (APS).

[Westfalia Technologies, Inc.](#), a leading supplier of automated parking systems worldwide, is a sponsor and will be showcasing its APS at the Forum. In addition, Forum-goers are invited to attend free 20-minute nano sessions for LU credits at Westfalia's booth.

This introductory-level course about Project Planning and Design describes the benefits of automated parking systems, including environmental, space savings, development savings and operating cost savings. Different types of APS will be explored, and the process of specification will be explained.

Learning objectives include:

- Discussion of land design challenges in large urban areas due to increasing number of automobiles and less available space.
- Describe how innovations in APS are changing urban land-use patterns.
- Assess the space-saving, user-experience, safety and environmental benefits of APS.
- Explain the benefits of APS to property developers and owners in terms of cost, space, labor and energy savings as well as the benefits of specifying such a system in a project

Where

[Convene](#)
30 S 17th Street

Floor 13
Philadelphia, PA 19103

When

October 2-4, 2019

FOR MEDIA INFORMATION:

Please contact Claire Kelly. She can be reached at 240-686-1000 or by email claire@dprgroup.com. Ian Todd, Westfalia's Director of Automated Parking, will be available for interviews before, during and after the event.

FOR ATTENDEES:

For more information and to register, please go to the AIA Conference website: <https://www.forum-arch-design.org/>

About Westfalia Technologies, Inc.

Westfalia Technologies, Inc. is a leader in providing logistics solutions for plants, warehouses and distribution centers. Its expertise in combining software (WES) development with automated equipment manufacturing reveals Westfalia's ability to deliver turnkey solutions to meet each client's specific needs with unsurpassed quality and control. To learn more about Westfalia's products, including Conveyors, Automated Storage and Retrieval Systems (AS/RS) and Savanna.NET® Warehouse Execution Systems, please visit www.WestfaliaUSA.com.

About Westfalia Parking Solutions

Leveraging the expertise and experience of Westfalia Technologies, Inc. and Westfalia Logistics Solutions Europe GmbH Co. KG, Westfalia's parking solution is paving the way for innovation in the automated parking industry. By capitalizing on existing core competencies in warehouse automation and materials handling, Westfalia's parking solutions specialize in cutting-edge, time-tested fully-automated parking systems for businesses, cities and municipalities, hotels, and residential properties for the Americas, Europe and Middle East. To learn more about these parking solutions, please visit www.WestfaliaParking.com.
